**Supporting Evidence:** Robert Hutton violated conditions of his supervised release by consuming heroin on or about October 7, 12, 19, 25 and 29, 2005, contrary to condition number 7 of the conditions of supervised release.

On or about the above-referenced dates, Robert Hutton was summoned to the Iverson Center for urine testing. The samples were tested and returned a presumptive positive reading for opiates. On November 1, 2005, Robert Hutton signed the attached admission of drug use form acknowledging heroin consumption on or about October 7, 12, 19, 25 and 29, 2005.

**U.S. Probation Officer Action:**

As the Court may recall, the offender consumed controlled substances in September 2005. The undersigned officer notified the Court that the offender would be referred to aftercare counseling. Contact with the chemical dependency counselor confirms that the offender participated in counseling as required.

As an intermediate sanction, Robert Hutton was again directed to abstain from the use of controlled substances while under supervision. Additionally, he is required to participate in an intensive inpatient program following his continued use of controlled substances. The undersigned officer discussed this recent use of narcotics with the chemical dependency counselor and confirmed the need for more intensive intervention. On November 16, 2005, the offender entered a 60 to 90-day intensive inpatient treatment program at Pioneer Center East.
